

Have you ever had a flat tire?

Then you'll appreciate Kia's
24-Month Road Hazard Coverage

If your tire gets damaged by a
pothole, nail, or other road hazard,
bring it back to us. We'll help.

See your Service Consultant for details.

 **Tire Source**

Eligible tires are Kia original equipment (OEM), original equipment alternative (OEA), and winter (WIN). Coverage eligibility is determined by date or until 2/32" or less of tread remains, whichever occurs first.

Buy Your Tires from the KIA Experts

Tires available here

- Meet or exceed your model's specifications
- Feature Kia expert installation
- Include 24-month road hazard coverage*
- Are backed by the Kia Tire Price Match Guarantee*

 Tire Source

*Talk to your Service Consultant for details.

A close-up photograph of a person's hand using a tread depth gauge to measure the tread depth of a tire. The gauge is a metal tool with a vertical scale and a small metal blade that fits into the grooves of the tire tread. The scale has markings for 32nds of an inch, with numbers 19, 20, 23, 26, 29, and 32 visible. The background is dark and out of focus.

How will you know when you need new tires?

Your Kia tire expert will check your tread depth and tire pressure.

Not all tires are the same

They Differ in Tread Patterns, Ride Quality, Mileage Life, Stability — and More

Kia engineers have chosen tires specifically for your model. Our competitively priced, name-brand tires are ready for installation.
